Bluetooth Connection

Connection Success

- ✓ The power indicator turns green.
- ✓ The board icon at the top right of the app turns green.

■ Bluetooth Connection Troubleshoot

Why can't I connect to GRANBOARD?

Allow all access permissions.
i.e. Microphone, camera, location, etc.

*For Android OS11 and below, "Device location" must be allowed for automatic Bluetooth connection.

Why can't I pair my device with the GRANBOARD.

GRANBOARD will automatically connect with the device.

If it does not connect automatically, tap the icon on the upper right corner of the app screen.

I keep getting disconnected during the game.

Please check on the power source in use.

FAQ will be on 7P in this manual book. For more information, please have a look at our Website.

Congratulations! You are ready to play with GRAN BOARD!
For further advice and FAQs, please continue to the next pages.

To extend the best playing experience

The sensor sheet matrix

Heavy weighted dart will cause the segments and sensorsheet to wear out relatively quickly.
Recommended weight of darts: 18g

Do not forcefully push the segment in. It may cause damage to a sensor sheet. Please handle it gently.

What if the matrix is damaged?

"Score keeps registering without throwing darts"
"Incorrect score started to register"

When the sensor sheet is damaged, replacement parts are required.
(parts can be purchased separately)

Q Why can't I connect to GRANBOARD?

A Please allow all access permissions.

Android

- ① Open the device settings.
- ② Tap [Apps]
- ③ Tap [GranBoard]
- ④ Tap [Permissions]
- ⑤ Accept all access permissions.

iOS

- ① Open the device settings.
- ② Tap [GranBoard]
- ③ Accept all access permissions.

Q I have all permissions accepted, yet I can't connect.

A For the device with Android OS11 or lower, turn on "Device Location."

- ① Open the device settings.
- ② Tap [Security & Location] → [Location]
- ③ Turn on Location.

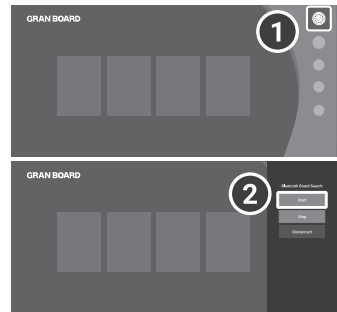

*Location must be allowed for automatic Bluetooth connection.

Q Why can't I pair my device with the GRANBOARD?

A When the app is opened, GRANBOARD will automatically connect to the device.

If the auto connection does not work, manually connect from the board icon at the top right of the app screen.

 GRANBOARD cannot be paired from the device Bluetooth settings.

Q I keep getting disconnected during the game.

A Please check the power source in use.

MUST USE a power adapter that outputs ONLY 5V, 1.5A or more.

 DO NOT USE the power adapter that has multiple OUTPUTs like 9V, 12V. More than 5V may be transmitted and cause malfunction and failure.

 DO NOT USE USB-C and AA batteries at the same time. It may cause unstable operation.

FAQ

LED Error

Q LED does not light up / LED maintains in rainbow during the game.

A Please check the power source in use.

MUST USE a power adapter that outputs ONLY 5V, 1.5A or more.

DO NOT USE the power adapter that has multiple OUTPUTs like 9V, 12V. More than 5V may be transmitted and cause malfunction and failure.

DO NOT USE USB-C and AA batteries at the same time. It may cause unstable operation.

Q The LED no longer lights up properly.

A The LED strip may be damaged. Please contact customer support.

FAQ

Scoring Error

Q The app sometimes does not recognize my 2nd or 3rd hit.

A Please try Adjusting the "Board response interval" in the settings.

- ① Tap settings in app
- ② Select [BOARD] tab.
- ③ Set the "Board response interval" at max value 12.
- ④ Adjust it between 1 - 4 for your best interval.

Q Specific number keeps scoring without even throwing.

A Sensor sheet may be damaged. Please contact customer support.

Q The app store tells me "Your device isn't compatible with this version."

A Please check if your device meets the installation requirements.

Android

- Devices with 64-bit and OS 8 or later
- Main memory: 4 GB or more
- Bluetooth 4.0 HID or later

iOS

- Devices with iOS 12 or later

Higher specifications and an internet environment are highly recommended for the comfortable use of the specific features.

Q I want to play on my TV or monitor.

A Please use the mirroring or HDMI output.

Mirroring or HDMI output allows you to project the App on a large screen. Please ask the manufacturer of your device for details.

Q Can I use the application on Android Box?

A The app is available on some recommended models.

Recommended models: Ugoos AM8 64 bit TV Box or devices with similar or higher specifications. Please note that operation is not guaranteed if the device does not meet the recommended spec.

Warranty Policy

The Warranty Period for Physical Goods purchased is 90 days from the date of purchase. GRAN DARTS in principle provides replacement parts for defects and malfunctions.

Defects and failures of the product will be covered provided related documents and information, including but not limited to:

- The proof of purchase
- Information to identify the cause of defects.

What is Not Covered by the Warranty?

- The proof of purchase being altered or made illegible.
- Malfunction or damage caused during the transportation.
- Malfunction or damage caused by improper installation and usage.
- Malfunction or damage caused by modification/conversion kits not authorized by GRAN DARTS.
- Malfunction or damage caused by acts of nature.
- If you are not able to provide information to identify the cause of defects or failures as mentioned above.

FAQ

Guest and Account

Q I want to set a name and icon for a free guest.

A You can edit the name of a free guest. The icon cannot be changed.

- ① Tap settings in the app.
- ② Go to "GAME" tab on page two.
- ③ Find "Edit Free Guest" and tap [Change Name]
- ④ Enter the name you like and tap SAVE.

*Free guest is temporary data, play data will not be saved and recorded. If the guest wants to manage the play data, please use the Guest Entry function after creating an account with the GranPlayer app.

Q I want to have my guest's data tracking when playing on my GRANBOARD.

A Please use the Guest Entry function.

The guest, who has his/her account, can play together by entering as a "Guest Player".
Play data will be recorded and reflected in their stats.

Malfunction When Out-of-Warranty

- All parts are available to purchase separately for GRANBOARD3s and GRANBOARD132.
"Score no longer registers correctly due to the damaged sensor sheet" "Segment was cracked"
With proper maintenance, using only official GRANBOARD parts will extend the life and performance of your product.
- Experiencing issues with your GRANBOARD? Please contact us.
Providing a picture or screenshot of the defective part or issue will assist GRAN DARTS in finding a resolution.
- *Disclaimer: GRANBOARD dash models are not serviceable.
